GEOMORPHOLOGY

Contents Volume 12, 1995

Preglacial landforms — An introduction
K. Lidmar-Bergström 1
Models for landform development on passive margins. Some implications for relief development in glaciated areas
M.F. Thomas 3
Pre-Quaternary landforms in the low latitude context: the example of Australia
C.R. Twidale and E.M. Campbell 17
Tectonics and landscape evolution in southeast Australia
C.D. Ollier 37
Relief and saprolites through time on the Baltic Shield
K. Lidmar-Bergström 45
Mineralogy, chemistry and palaeoenvironmental significance of an Early Tertiary Terra Rossa from Northern Ireland: A preliminary review
B.J. Smith and J.J. McAlister 63
Characteristics and significance of two pre-late-Wisconsinan weathering profiles (Adirondacks, USA and Miramichi Highlands, Canada)
M. Bouchard, S. Jolicoeur and G. Pierre 75

Research Papers
Use of soils and colluvial deposits in analyzing tectonic events — The southern Arava Rift, Israel
R. Amit, J.B.J. Harrison and Y. Enzel 91
Landslide induced river bed uplift in the Tal valley of Garhwal Himalaya, India
S.K. Bartarya and M.P. Sah 109
Preliminary results from the lichenometric study of the Nautardálur rock glacier, Tröllaskagi, northern Iceland
S.J. Hamilton and W.B. Whalley 123
The Pleistocene Faro/Quarteira formation of the Algarve region, southern Portugal
D.K. Chester and P.A. James 133
Inversion of relief — a component of landscape evolution
C.F. Pain and C.D. Ollier 151

Book Review 167

Newsletter of the International Association of Geomorphologists 169

The importance of spatially heterogeneous erosivity and the cumulative area distribution within a basin evolution model
G.E. Moglen and R.L. Bras 173
Simulation modeling and statistical classification of escarpment planforms
A.D. Howard 187
An interdisciplinary approach to evaluation of potential instability in alluvial channels
A. Simon and P.W. Downs 215
The hydrology and form of spring-dominated channels
P.J. Whiting and J. Stamm 233
Influences of coarse bank roughness on flow within a sharply curved river bend
S.D. Thorne and D.J. Furbish 241

Research Papers
Prediction of alluvial channel pattern of perennial rivers
J.H. Van den Berg 259
A ground-water sapping landscape in the Florida Panhandle
S.A. Schumm, K.F. Boyd, C.G. Wolff and W.J. Spitz 281
Scaling regimes of local slope versus contributing area in digital elevation models
E.J. Ijjasz-Vasquez and R.L. Bras 299
Numerical analysis of morphology in relation to coastline variations and karstic phenomena in the southeastern Murge (Apulia, Italy)
G. Bruno, V. Del Gaudio, U. Mascia and G. Ruina 313
Rock weathering processes and landform development in the Sør Rondane Mountains, Antarctica
N. Matsuoka 323
